

# Learning Objective:

I will learn how to create design ideas based on an existing designer

- I will have an understanding of the design process
- I can design 4 different ideas for my light presented to a high standard
- I can develop my designs by adding colour and fine liner

## 2 lessons

You must demonstrate your learning of presentation and design skills by creating a design sheet of **4 different light designs** in the style of Pop Art.

Think about - Composition, Line weight Colour (tonal and block), Presentation skills - fine liner, Title, Border

You must annotate your designs explaining their function and how they are in the style of Pop Art.

Using materials around the home e.g paper and card create a model of your favourite design make sure you add the graphics either by sketching them on or by printing and sticking them on.
